

MEMBERSHIP INFORMATION

THE SIGNIFICANCE OF THE ARC MEMBERSHIPS

Membership plays a special role in the livelihood of our organization. When looking back over 60 years, The Arc of Sedgwick County, Inc. was built and subsidized by membership dues.

Families have been passionate about the services and assistance provided by The Arc and excited about the possibilities of future growth and the impact The Arc will have for future families.

Membership is open to anyone passionate about our mission and the work we do that impacts the lives of individuals with intellectual and developmental disabilities and our community.

The Arc provides services and programs throughout the lifetimes of persons with intellectual and developmental disabilities and their families. This vulnerable population typically has limited resources and therefore relies on community support and resources for maintaining quality of life.
